Subject: The Weak Stand Against Good Moral and Ethic Behavior and Microsoft....

I'm amazed that this administration has supported and ignored the effects of the illegal behavior of Microsoft. Also that the position is to encourage such behavior. We all see now that the Government and Microsoft join to run this country.... What a shame.... I have been a long time republican and I hate to even consider standing for this administration dealings with the Microsoft case.

God Bless a Honest America!

David Peter
